LinkedIn: <https://www.linkedin.com/in/tylerpetri93/> | Portfolio: <https://tylerpetri.github.io/Portfolio/>
GitHub: <https://github.com/TylerPetri>

A motivated Web Developer enjoying the problem-solving and looking forward to fun big things in the near future. Eager to contribute strong critical thinking to the team through open-minded communication skills! Seven months of coding experience, including graduate of a 12-week intensive Web Development bootcamp.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5

Applications: GitHub, MongoDB, MySQL, DynamoDB, AWS, S3, EC2, Ubuntu, Lambda, Heroku, MongoDB Cloud, Firebase, Insomnia

Tools: MERN (MongoDB/MySQL, Express, ReactJS, NodeJs), React Hooks, Handlebars, jQuery, ORM, Material-ui, Bootstrap

PROJECT EXPERIENCE

AWS-thought | <https://github.com/TylerPetri/aws-thought.git> | <http://18.117.245.156/>

- Developed a full stack message board, allowing image and text upload capabilities.
- Utilizing AWS, S3 for image bucket, DynamoDB for text and EC2 Ubuntu Nginx pm2 for hosting.
- Tested with Insomnia.

Google books search – MERN (sole developer) | <https://github.com/TylerPetri/Google-books-search.git>
| <https://googlebooksapi9000.herokuapp.com/>

- Developed a UI for the google books search API with user-authentication by incorporating MongoDB.
- Organized code folders allowing upscaling and minimizing human error bugs.
- Manually debugged through problem solving, adaptation and organization.

Lead Full Stack Developer – <https://github.com/Better-er-Help/project3>

Mar 2021 – Apr 2021

- Participated in and managed the creation of a live chat service connecting one to a qualified psychology specialist privately or to a public chatroom to feel less lonely.
- Ensured team stayed on top of project deliverables and deadlines.
- Initiated group discussions and distributed tasks to team member.

WORK EXPERIENCE

Ryu Sushi

Waiter

July 2019 – December 2019

Montreal, Qc

- Quickly learned and adapted to daily specialty changes. Being able to answer any question.
- Participated in architectural design concepts to maximize sales and service.
- Overlooked service when waiters wouldn't show up for work, adapting through focus and calculation.

Kampai Garden

Cook

Jan 2019 – June 2019

Montreal, Qc

- Worked together with the chef to improve organization and oversee shipments, ensuring sufficient quantity and quality of ingredients for busy service.
- Worked together with other stations to ensure top quality service, sharing the load of orders.
- Lead new cooks on menu items and preparation process, ensuring consistency between meals and customer satisfaction was maintained.

EDUCATION

12-week Bootcamp, Full Stack Web Development certificate – University of Toronto

Toronto, ON

An intensive 12-week program focused on acquiring technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, NodeJs, MySQL, MongoDB, Express, Handlebars.js & ReactJS.

CS50's Introduction to Computer Science – HarvardX

edx.org

Diplôme d'études professionnelles (DEP) – John Abbott College, Kuper Academy

MTL, Qc
