GitHub: <https://github.com/TylerPetri>

A motivated Full Stack Web Developer enjoying problem-solving and looking forward to fun big things in the near future. Eager to contribute strong critical thinking to the team through open-minded communication skills! Graduate of a 12-week intensive Web Development bootcamp and have learned many many things in between, now specializing in Javascript and MERN stack.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5

Applications: GitHub, MongoDB, MySQL, DynamoDB, AWS, S3, EC2, API-Gateway, Ubuntu, Lambda, Heroku, MongoDB Cloud, Firebase, Insomnia

Tools: NodeJs, ReactJs, React Hooks, ExpressJs, Handlebars, jQuery, ORM, Material-ui, Bootstrap

PROJECT EXPERIENCE

Library of Stories – MERN | <https://github.com/TylerPetri/De-Fabulis.git> | <https://library-of-stories.herokuapp.com/>

- Developed a full stack short story publishing/reading website, including GSAP/loading animation.
- MongoDB used as main database, utilizing DynamoDB for user info and session authentication.
- Utilized Multer and S3 buckets, allowing image file upload which was tested with Insomnia.

AWS form | <https://github.com/TylerPetri/aws-lambda-form.git> | <http://alf-bp53.s3-website.us-east-2.amazonaws.com/>

- Developed a full stack Reactjs app using Material-ui for front-end and AWS for hosting/back-end.
- Learned S3 static website hosting, API-Gateway/Lambda functions for API calls, and DynamoDB.
- Configured CORS and permission settings in AWS IAM roles.
- Incorporated loading animation, aesthetically pleasing error handling, and Google Maps Embed API.

Google Books API User-Interface | <https://github.com/TylerPetri/Google-books-search.git> | <https://googlebooksapi9000.herokuapp.com/>

- Designed and developed a UI for the google books search API.
- Incorporating MongoDB for personal favorites, saving books into a library for later use.

WORK EXPERIENCE

Ryu Sushi
Waiter

July 2019 – December 2019
Montréal, Qc

- Quickly learned and adapted to daily specialty changes. Being able to answer any question.
- Participated in architectural design concepts to maximize sales and service.
- Overlooked service when waiters wouldn't show up for work, adapting through focus and calculation.

Kampai Garden
Cook

Jan 2019 – June 2019
Montréal, Qc

- Always clean and organized. Working together with the team, always moving for top quality service.
- Worked together with the chef to improve organization and oversee shipments, ensuring sufficient quantity and quality of ingredients for busy service. Always clean and organized.
- Lead new cooks on menu items and preparation process, ensuring consistency between meals and customer satisfaction was maintained.
